[4934]

A05-07-013 - Pacific Gas and Electric Company (PG&E).

PG&E proposes there be no change to its generation rate component. As of June 30, 2005, PG&E's Energy Resource Recovery Account shows an overcollection of \$188.7 million or 4.94% of the prior year's recorded revenues, excluding revenues collected for Department of Water Resources (DWR). PG&E states that its DWR revenue requirement will increase substantially in 2006. Therefore, rather than decrease rates on October 1, 2005, and increase rates on January 1, 2006, PG&E believes no rate change would be preferable as it would provide smoother rates for its customers. This decision adopts PG&E's proposal. The matter is uncontested. This proceeding is closed.

A05-06-004 - Pacific Gas and Electric Company (PG&E).

A05-06-011, A05-06-015, A05-06-016 - Related matters. This decision authorizes 2006-2008 energy efficiency portfolio plans and funding levels for PG&E, Southern California Edison Company, San Diego Gas & Electric Company, and Southern California Gas Company, including the components that they will be putting out to bid and the bid evaluation review criteria. The next step is to review the results of their competitive bid solicitations, and resulting final program offerings in a separate compliance phase. Those filings will be made late this year and (for PG&E) early in 2006. Pending the outcome of the compliance phase, this decision authorizes the utilities to begin implementing on January 1, 2006 their non-competitive bid programs, as identified in their portfolio plans.

A05-03-016 - Pacific Gas and Electric Company (PG&E).

This decision approves a limited amount of pre-deployment funding for PG&E's proposed Advanced Metering Infrastructure (AMI) Project. The adopted amount of \$7.0 million is less than the \$49 million requested because it is limited to funding associated with activities to assess minimum functionality and investments that would provide value to ratepayers independent from the decision on whether ratepayers should invest in PG&E's proposed AMI Project. It would not be reasonable for ratepayers to fund the other activities that make up the \$49 million request in advance of the determination that the proposed AMI Project is reasonable in total. This decision adopts specific ratemaking and cost recovery treatment for the authorized funds and continues PG&E's existing memorandum account to enable PG&E to record costs for activities that are not authorized in to-day's decision. This proceeding is closed.

C04-08-026 - AT&T Communications of California, Inc., TCG Los Angeles, Inc., TCG San Diego and TCG San Francisco vs. Verizon California Inc.

C04-09-001, C04-09-010 - Related matters. In this complaint case, the presiding officer's decision (POD) ordered that Verizon California Inc. (Verizon) continue to allow Complainants AT&T Communications of California, Inc., TCG Los Angeles, Inc, TCG San Diego and TCG San Francisco (collectively AT&T); Complainants Telescape Communications, Inc and Wholesale Airtime, Inc.; Intervenor NII Communications, Inc.; Intervenor MCI, Inc.; and Intervenor A New Telecommunications Corporation d/b/a Call America and Navigator Telecommunications, LLC to purchase unbundled Local Switching and Common Transport network elements under the terms of their interconnection agreements. The POD finds that Verizon may not decline to sell the unbundled network elements on the grounds that Verizon has changed certain hardware (i.e., replaced the circuit switch with a packet switch) used to provide the network elements. Complainant ACN Communications Services, Inc. is not granted relief because its interconnection agreement with Verizon has expired. Intervenor Fones4All is not granted relief because of its failure to prosecute. Complainants Blue Casa Communications, LLC, Covad Communications Company, and Vycera Communications, Inc.'s motions to withdraw from this proceeding are granted. The decision also disposes of the appeal to the POD's decision filed by Verizon, as well as AT&T's motion to withdraw its complaint. These proceedings are closed.

R01-09-001 - Conference with Legal Counsel - Application for Rehearing

I01-09-002 - Related matters. Disposition of Application for Rehearing of D04-02-063 filed jointly by the Office of Ratepayer Advocates and The Utility Reform Network. In D04-02-063, the Commission disposed of four of 72 findings resulting from an audit of SBC Pacific Telephone Company (Pacific) for the period of 1997 to 1999. Among other things, the Decision determined that Pacific had properly written off the regulatory asset associated with post-retirement benefits other than pensions (PBOPs) above the line in 1998.
